

UNITED ESCROW[©]

For Online Shops

United Escrow is a trust-based Payment method that is safe and secure for buying and selling on Marketplaces and online shops.

With **United Escrow** you won't have to register in the future. Think more about whether a buyer or seller is trustworthy.

United Escrow - Your Protection From Failure To Pay And Fraud!

Security is a crucial argument in online transactions. With **United Escrow**, you give your customers a secure shopping experience and increase trust in your online shop.

Don't worry about poor payment practices or credit-worthiness of your customers. You only send your goods after successful delivery of Payment and thus minimize your own advance payment risk.

United Escrow protects you from attempted fraud and payment defaults and offers your customers the highest level of comfort and maximum security in payment processing.

ADVANTAGES FOR ONLINE SHOPS

Save costs through avoidance of credit-worthiness and risk assessments

Encrypted data transmission and **maximum data protection**

Higher probability of placement and increasing sales

Protection against payment defaults and Attempted fraud

Minimized advance payment risk - Goods only shipped the goods after successful payment

Increase your trustworthiness and gain new customers

HOW UNITED ESCROW WORKS explained in five easy steps

Buy

The buyer decides at checkout for payment processing with United Escrow

Send Goods

You will have the send receipt for goods which can then be sent

Recieve Money

After approval, the money will be transferred to your account.

Deposit Money

The buyer transfers the Purchase price on one Escrow account

Check Goods

The buyer checks the goods and gives the money free via United Escrow
